## WORKSHOPS & COURSES

- Currently pursuing an online course on Python on Udemy
- Currently pursuing an online course on Data Science and Analytics on Udemy.

## PROJECTS

1. Mini Project on “Visualisation of a dataset using tableau to find useful patterns”

Project Description: -

Problem statement was to analyse why customers of a bank were closing their accounts across different branches in three different countries and to find patterns that lead to a solution. This mini project was performed using tableau 10 which is a business intelligence tool for analysing the dataset provided by a data science based website.

2. Mini Project on computer graphics called “Fly Me”

Project Description: -

This is a simple 2D endless runner game that involves an aeroplane to move in only one direction and can be controlled to move up and down using mouse. If the aeroplane crashes into any of the approaching walls then it's a game over.

Declaration: - I hereby declare that the details furnished above are true and correct to the best of my knowledge and belief.

Place: - Bangalore

Date: - 28-08-17
